

ACADEMY

Control Union Academy (Malaysia) is envisioned as a strategic hub for professional development, creating value through both internal talent cultivation and external industry capacity-building. We provide consistent, high-quality training across our core areas of expertise—inspection, certification, auditing, and sustainability—while strengthening essential leadership and soft skills.

Our programs integrate global best practices with practical, real-world application, ensuring professionals remain agile and competent in a rapidly evolving landscape. Whether the goal is to enhance compliance, advance sustainability, or elevate workforce capabilities, we provide the tools, knowledge, and competencies needed to deliver meaningful, measurable results, turning every achievement into **proof of your promise**.

We are a registered HRD Corp Training Provider, and all our programs are fully HRDC claimable. In addition, our courses are Exemplar Global certified, ensuring they meet internationally recognised competency and quality standards
